Our plans fit the way you live.

In a world that's constantly changing, one thing's for certain: it's important to have health care coverage you can depend on – coverage designed to help fit your budget, and your way of life.

For over 70 years, Anthem has provided health care coverage and security to our California neighbors. And now, we're pleased to offer these same individual health care plans with added benefits and features of the Patient Protection and Affordable Health Care Act.

You're in charge of your health and budget, and our Individual health care plans help keep it that way. We still offer a wide range of coverage options as unique as you are. And if you have any questions, we're here to help.

Sounds like a plan.

Experience you can rely on

Anthem is committed to helping simplify your life and improving your health. That's why we offer:

- **One of the largest provider networks in California.**
With nearly 80,000 PPO doctors and more than 315 hospitals throughout the state, chances are your doctor is one of ours.
- **A choice of plans to fit your budget and lifestyle.**
No matter where you are in life, we've got a plan designed to fit your health coverage needs, as well as your budget.
- **Optional dental and term life insurance.**

- **Coverage that travels with you.**
No matter where life takes you, your health coverage goes with you. And the BlueCard® program makes it easy to access providers throughout the country.

Why do you need health care coverage?

These days, a single day in the hospital can cost thousands of dollars. Not only does health coverage help you stay healthy, it also gives you added security, because you know you're protected against the high cost of unexpected medical bills.

Some definitions so we're all on the same page

Network Discounts: With Anthem Blue Cross you have access to one of the largest provider networks in the state. These network (or participating) providers have agreed to accept lower costs for their covered services to Anthem members — similar to volume discounts. These negotiated costs help reduce the overall cost of covered medical services, including your share of those costs.

This is true whether you are paying the entire cost for covered services (such as while you are meeting your deductible), or whether we are sharing the cost. With nearly 80,000 PPO doctors and more than 315 hospitals, chances are your provider already participates. Just visit a network provider to take advantage of the savings.

With our PPO plans, you can always choose to receive services outside the network, but your share of the cost will be greater.

Cost-Sharing: The costs of medical care today can be staggering. Health care coverage from Anthem can help protect you against these high costs. With most health care coverage, you pay a monthly premium, then you share some of the cost of covered medical care with the company that provides your health care coverage. The level of cost-sharing you choose directly impacts your premium amount. The more you are willing to share in the costs, the lower your premium. With Anthem you can choose your level of protection and the level of cost-sharing that works best for your health care needs and budget.

Deductible is the amount you have to pay each calendar year (annually) for covered services before your health care plan starts paying. For some services, the plan will even begin to pay before the deductible is met. Usually, the higher a plan's deductible, the lower the premium. In some cases, you may also have a separate deductible for certain services such as prescription drugs.

Coinsurance is the percentage of the cost of covered services that you will be responsible for, after your annual deductible is met. With some plans, you have a choice of coinsurance levels. For some services, your coinsurance will be 0%. Much like your deductible, selecting a higher coinsurance typically lowers your monthly premium because it increases your share of the cost.

Copayment (or Copay) is a specific dollar amount you have to pay for certain covered services.

Out-Of-Pocket Maximum is the most that you would pay in a calendar year for deductible and coinsurance for network covered services. Once you reach this maximum, the plan pays at 100% for most services for the rest of the calendar year.

Prescription Drugs are medications that must be authorized for use by your doctor. Anthem offers varying levels of prescription drug coverage. Depending on the plan, you may have coverage for generic drugs or generic and brand name drugs.

Generic Drugs are prescription drugs that typically have been in use for some time and can be manufactured and distributed by numerous companies, so their cost is usually much lower. Generic drugs must, by law, contain the same active ingredients as their brand name equivalent and have the same clinical benefit.

Brand Name Drugs are prescription drugs that are manufactured and marketed under a registered name. They are usually patented and may be exclusively offered by certain manufacturers.

Specialty Drugs are typically high cost, scientifically engineered drugs used to treat complex, chronic conditions. They require special handling and usually must be shipped directly to the user.

Formulary is a list of prescription drugs our health care plans cover. They include generic, brand name, and specialty drugs that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality and effectiveness. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes medication from our formularies. There can be different formularies for different health care plans.

ClearProtectionSM Plus **Is this the right plan for you?**

ClearProtection Plus is one of our lower-priced plans with an innovative plan design that helps limit your share of the costs for major medical expenses, such as surgery and hospitalizations. In addition:

- You'll have immediate benefits for your first two doctors' office visits.
- There are two deductibles that work together to help you meet your out-of-pocket maximum.
- Once your out-of-pocket maximum is met, the plan pays 100% of the costs for most network covered services.

ClearProtection Plus Plan Highlights

This plan offers a valuable combination of affordable coverage with some immediate benefits, plus a broad range of benefits once the out-of-pocket maximum is met.

Features:

- Some of our lowest monthly rates and immediate coverage for first two doctors' office visits.
- Access to discounts on ALL covered services from network providers while meeting your out-of-pocket maximum.
- 100% coverage for most network covered services once your out-of-pocket maximum is met.
- Coverage for generic and brand name prescription drugs.
- Preventive care benefits help focus on keeping you healthy.

You should know:

- This plan features two deductibles that work together to help you meet your total out-of-pocket maximum.
- Maternity benefits are not included with this plan.

Preventive Care

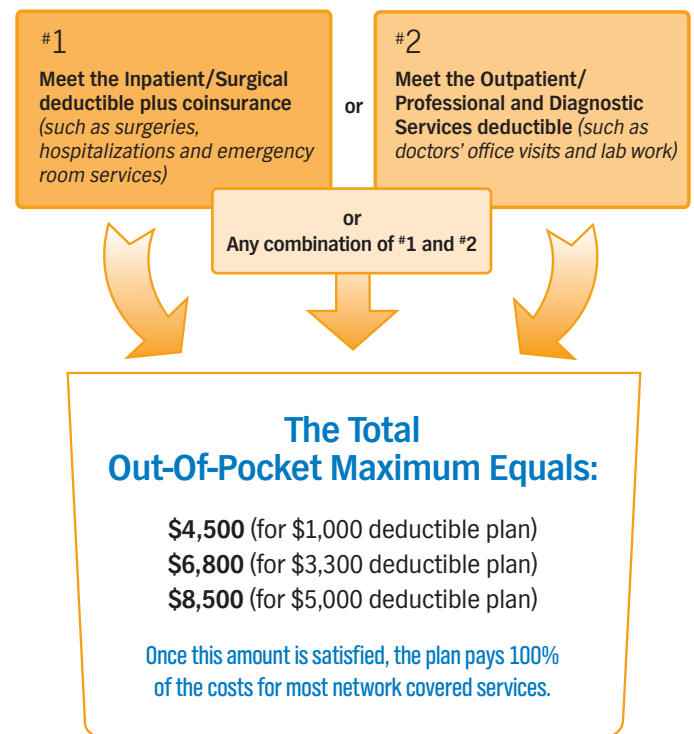

In addition to the preventive care benefits described in the following Benefit Guide, you also have the option of going to a HealthyCheckSM Center. These centers provide fast, easy and convenient annual preventive screenings (for ages 7 and older) at no cost to you. For more information about HealthyCheck, go to anthem.com/healthycheck

How ClearProtection Plus Works

ClearProtection Plus has two deductibles:

- 1. INPATIENT/SURGICAL SERVICES**
This is the lower of the two deductibles to help you access benefits faster for these higher-cost services.
- 2. OUTPATIENT/PROFESSIONAL AND DIAGNOSTIC SERVICES**
This deductible is equal to your out-of-pocket maximum. So even if you only use outpatient services, once you meet this deductible, you will have also met your out-of-pocket maximum.

These two deductibles work together to help you reach your total out-of-pocket maximum. Depending on your health care needs, you can satisfy your total out-of-pocket maximum in any of the following ways:

Note: Deductibles and Out-of-Pocket Maximums are based on a calendar year (January 1 - December 31).

Important Information for Applicants Under the Age of 19

As provided by California AB 2244, children under the age of 19 may be assessed a 20% surcharge for a period not greater than 12 months following the effective date of coverage if the child has not had coverage within the 90 day period prior to the date of the child's application and is not a late enrollee. Proof of prior coverage within the 90 day period prior to the application is required.

Incurred Medical Care Ratio

As required by law, we are advising you that Anthem Blue Cross' incurred medical care ratio for 2009 was 83.44 percent. The 2009 medical care ratio for Anthem Blue Cross Life and Health Insurance Company was 78.4 percent. These ratios were calculated after provider discounts were applied and based on regulatory rules and regulations.

Waiting Periods

For applicants age nineteen (19) and older, there is a specific six-month waiting period for coverage of any condition, disease or ailment for which medical advice or treatment was recommended or received within six months preceding the effective date of coverage. If you apply for coverage within 63 days of terminating your membership with another "creditable" health care plan, then you can use your prior coverage for credit toward the six-month waiting period. Anthem will credit the time you were enrolled on the previous plan. The pre-existing condition limitation does not apply to applicants under age nineteen.

Utilization Management and Case Management

Our Utilization Management (UM) services offer a structured program that monitors and evaluates member care and services. The UM clinical team, which is made up of health care professionals who hold active professional licenses and certificates, perform the prior authorization, concurrent and retrospective review processes explained below. The UM team follows criteria to assist in decisions regarding requests for health care and other covered benefits, and complies with specific timeframes to ensure requests are handled in a timely manner. Our case management services help you to better understand and manage your health conditions.

Prospective Review / Pre-Admission Review

Prospective review (also known as pre-service or pre-admission review) is the process of reviewing a request for a medical procedure or service before it takes place. The review occurs to ensure that:

1) the procedure is medically necessary and 2) the procedure meets your health care plan's specific guidelines prior to being performed.

Requests for prospective review may include but are not limited to:

- inpatient hospitalizations
- outpatient procedures
- diagnostic procedures
- therapy services
- durable medical equipment

Prospective review is required for all elective inpatient admissions and certain outpatient services. The review process evaluates medical necessity and the best level of care and assigns expected length of stay if needed.

Concurrent Review

Concurrent review is an ongoing evaluation of a member's hospital stay, as well as ongoing extensions of services that may be needed (such as acute care facilities, skilled nursing facilities, acute rehabilitation facilities, and home health care services). The review includes physicians, member-assigned health care professionals (or member authorized representative) and takes place by telephone, electronically and/or onsite.

Concurrent review uses pre-set decision criteria in order to approve medical care (deemed to be medically necessary) and assign the right level of care for continued medical treatment. Review decisions are based on the medical information obtained at the time of the review. Concurrent review also helps to coordinate care with behavioral health programs.

Retrospective Review

The retrospective review process consists of obtaining information to determine medical necessity as it relates to services provided without approval or notice ahead of time (e.g. without pre-service notification). Relevant clinical information is required for the retrospective review process. Review decisions are based only on the medical information the doctor or other provider had at the time the member received medical care.

Case Management

Case managers are licensed healthcare professionals who work with you to help you understand your benefits and support your health care needs. The case manager works with you and your doctor to help you better understand and manage your health conditions.
